

Broadcast The Bible Lesson Instruction Page

*Pictures show Materials from Lesson 1

Step 1: Use Duplex printing.

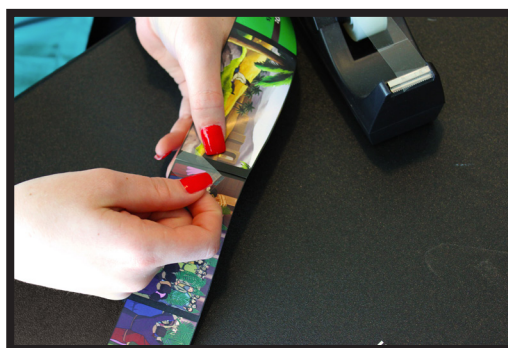

Step 2: Cut out the two film strips and the Elevate At Home page with the "broadcast device."

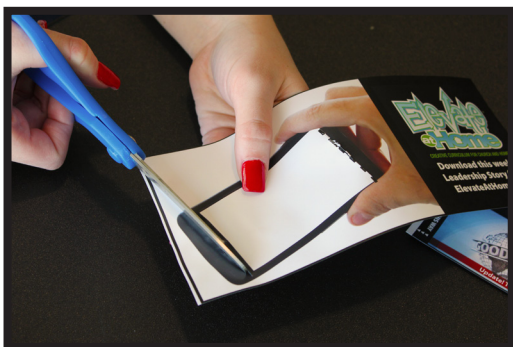

*Lessons have different devices

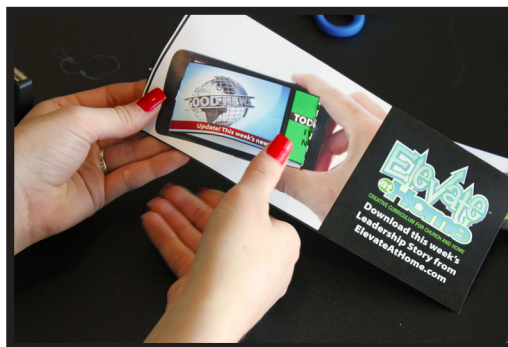

Step 3: Check the picture numbers on the back, or the black and white side. Tape the back side of the matching pieces together.

Step 4: Then, tape the front side of each piece together.

Step 5: Carefully cut a slit, where indicated, to allow the film strip to pass through the screen on the broadcast device.

Step 6: Pass the film strip through the slits. Color side should face front. Cut the slits a bit wider, if needed. Start with the "Good News" logos showing.

Step 7: Pull the strip through one frame at a time and read the slide that just came through the slit.

Step 8: The back view should look like this.
